MOBILE-TT Mobile Motor Table Stand

Stylish executive motorised mobile stand that can be used in both horizontal or vertical positions (or in between). Great for small group meetings and training where participants want to work around the touchscreen.

Constructed from scratch resistant powdercoated steel, the MOBILE-TT can be raised/lowered and tilted from vertical to horizontal by motor. It features 6 heavy duty castors (2 locking) to ensure 4 castors are on the ground at all times for extra stability. The stand has been designed so it can be positioned close to the wall for economy of space, and has cable remote control so it can be set at the appropriate height and position for the application.
